You will find the new formula gives you the same benefits as the old formula did, only now with added benefits. Nutrients and other natural ingredients such as Gamma Linoleic Acid (GLA) from Evening Primrose Oil and Wild Yam have been added to make **Complete La Femme® Breast & Balance™ Lotion** a *more complete* formula.

Women's Delicate Hormonal Balance

Women may experience any number of hormonal shifts or imbalances throughout their lifetime that can affect their daily functioning and quality of life. A number of women often experience irregular or even painful menstrual periods along with Pre-Menstrual Syndrome (PMS) that includes unpleasant symptoms such as mood swings, irritability, bloating and cramping.

Certain natural ingredients can aid in maintaining healthy hormonal balance, proper lymph drainage and glandular functions by providing essential nutrients. Some of the most important ingredients for these purposes, now included in the formula, are Evening Primrose Oil (GLA) and Wild Yam.

The New Ingredients in Complete La Femme® Breast & Balance™ Lotion

Evening Primrose Oil (GLA) can assist with the relief of PMS symptoms by supplying the essential fatty acids that are necessary for proper hormonal regulation, proper immune function and glandular tissue support. Wild Yam, also known as Dioscorea, has been used traditionally for many years as a relaxing remedy for painful menstruation, as an alternative to hormone replacement, and to alleviate ovarian pain.
